PLC BASED SOFTFLOW HTHP DYEING MACHINE WITH PREHEATING CHAMBER

(upto Liquor ratio 1:4)

Pranav

Recreating the Essence of Nature

Quality fabric is the key to making apparel that is trendy as well as durable. And when it comes to manufacturing machines that produce superlative fabrics, one name always stands out... Pranav

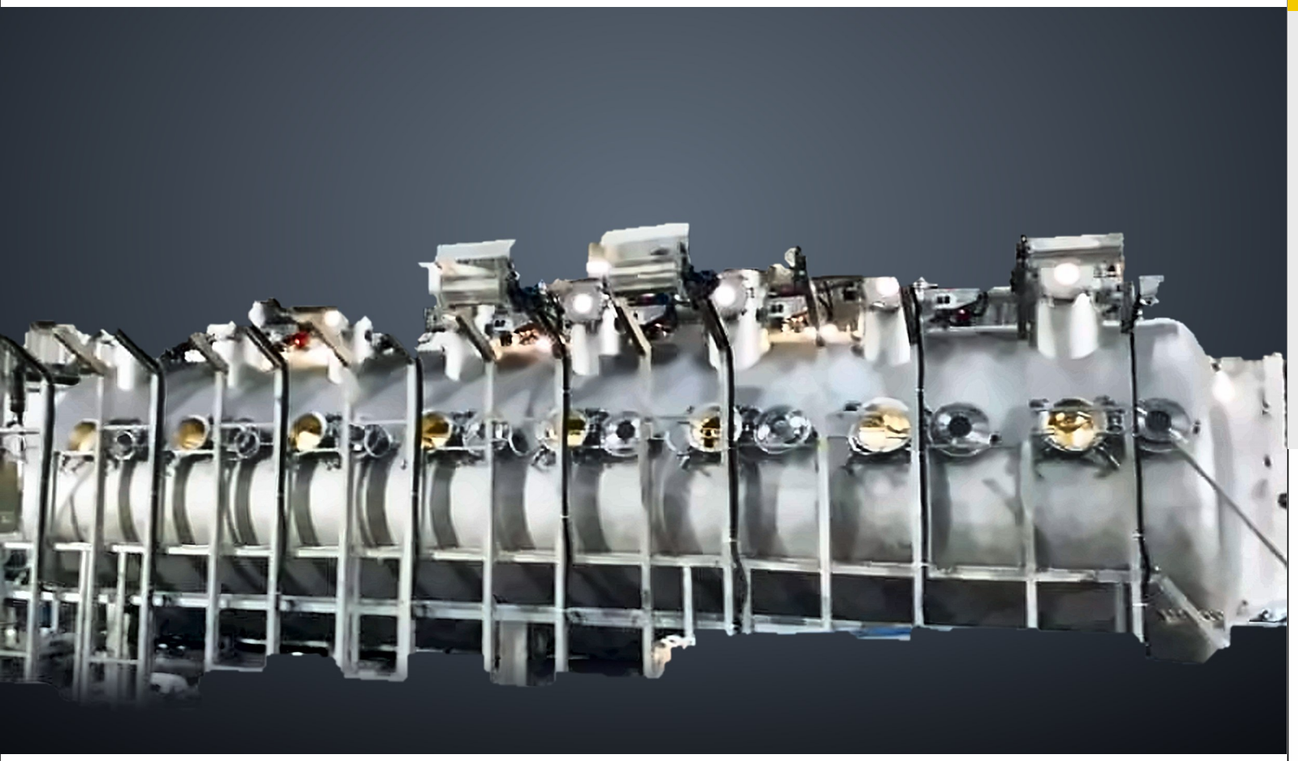

Pranav Textile Engineers Pvt Ltd is a leading company engaged in the design and manufacture of highly versatile textile fabric soft flow piece dyeing machines. The Company specializes in manufacturing machines that are ideally suitable for batch-wise dyeing and bleaching of a wide variety of woven and tubular or open width knitted fabric in rope form.

Located in Pune - Maharashtra, Pranav is a reputed name that symbolizes innovation, technology and service. Our superb quality is our sole identity! Our machines are extremely flexible, highly cost-effective and successful for light weight knit goods such as collars, cuffs or smaller dia single jersey interlock, fleece, terry fabrics, etc. And of late, our high capacity machines are being used for very heavy 3.2 mtrs woven bed linen fabric.

Only high-grade stainless steel SS 316 L is used in making modular dyeing machines, with all critical bought outs sourced from the best respective suppliers in the world. These machines are highly robust and are available in a wide capacity range, right from a 10 kg sampling machine to production machines exceeding a capacity of 1,500 kgs per batch. More than 500 such machines are presently working to customer satisfaction all over the world.

Pranav being in business for last 20 years have now developed and introduced ECO-STAR production machines with a LOWER HEAD MODEL HM model WITH specially designed CYCLO nozzle which ensures faster circulation of WATER and also Lower elongation of fabric because of less pull to the fabric.

Pranav also offer MINI-STAR sample soft-flow dyeing machines.

2000 KGS

Salient Features of our HM Model Dyeing Machine

- Shortest machine cycle time (as low as 5.5 hours per cycle for cotton reactive dyeing under ideal working conditions
- Lowest cost per kg output (in terms of time, water, steam and electrical power as well as dye and chemicals)
- Highest kilos per port output at highest sustainable levels of quality (an achievable 200kgs per chamber)
- Lowest jet nozzle pressures
- Highest flexibility of loading with perfect reproducibility of shade
- Lowest liquor - ratio down to 1:4
- Lowest water consumption (an average of 40 litres per kg)
- Guaranteed tangle free operation
- Highest fabric quality in the widest possible range of fabrics
- Highest production versatility
- Full length PTFE sheet to ensure zero friction between fabric and Stain less steel
- Highest batch to batch reproducibility
- Modulating Dosing
- Salt Gulping System for faster injection of Salt
- Variable Winch Drive
- Modulating Heating /Cooling
- Electronic Flow Meter
- Modern Touch Screen Controller (SEDOMAT / ENMOS SIMPLEX)
- All important BOUGHT outs from reputable manufacturers having international collaboration
- Machines manufactured from Heavy Duty SS 316 L and supplied with Material Test Certificate
- Introducing CCR function - Continuous Cooling and Rinsing

Compact Design

Dynamic Program

Capacity of 2000 steps

Use Customizable Configuration

240 x128 Graphical Display

Easy Calibration with high precision

Parallel Programs and Processes

Single Step and Continuous Control Loops

Automatic filling of the chemicals by measuring into the additional tank

Fully Automated dosing with 6 different Gradient

Automated Water Filling

Recording Module

Technical Data :

Maxi. Working Temperature	:	135° C
Maxi. Working Pressure	:	3.5 bar
Heating Rate	:	Approx. 4°C/Min, Minimum required Steam pressure 6 bar
Cooling Rate	:	Approx. 4°C/Min, Minimum required Water pressure 4 bar at 15°C

OUR CUSTOMERS

Softflow dyeing machines installed across India, Bangladesh and Nepal

INSTALLATIONS

NORTH

- V & S, Gurgaon
- SPL, Faridabad
- DGL, Faridabad
- Sonia Textile, Faridabad
- Ambika Dyeing, Manesar
- Oriental Dyeing, Ludhiana — 4 machines
- Ekta Dyeing, Ludhiana — 3 machines
- Kay Jain Processing
- Oswal Dyeing and Printing
- Media Impex
- PI Cotex
- Jai Ganesh Processors
- Gupta Exim
- RS Printfab
- MK Dyeing

WEST

- Gaurav Dyeing, Mumbai
- Sudhiti Industries, Mumbai
- Shree Ginger Enterprises — 5 machines
- Ceenik Exports — 7 machines
- BB Knitting — 8 machines

EAST

- Exodus Knitwear, Kolkata
- Popular Udyog, Kolkata
- Mahadev Fabrics, Kolkata
- Savi Trexim — 11 machines
- Amit Paridhan — 9 machines
- Hanuram Processing
- Singhal Brothers
- Sadguru Processors

SOUTH

- Tubeknit Fashions, Tirupur
- Maxwell Industries, Perundurai
- Sri Vaishnudevi Mills, Mettupalayam
- MP Santex, Tirupur
- SSM, Tirupur
- Exim, Perundurai
- ISPL, Perundurai
- RMS Dyeing, Tirupur
- Kaytee Group, Tirupur
- RA Knitting, Tirupur
- GMS Processors, Tirupur
- Point Exports, Perundurai

BANGLADESH

- Clifton Group, Chittagong
- KDS Group, Chittagong
- Purbhani Group, Dhaka

NEPAL

- Jaykamal Industries
- Rabindra Knitfab
- Annapurna Dyeing
- Fashion Fabrics

WHAT CUSTOMERS SAY

> We were the first to place an order for 5 machines and are very much satisfied with the dyeing results, which are comparable to our Thies machines. It is the most copied machine in Tirupur because it is good, simple, versatile and easy to run, but original Pranav is original.
>
> **Mr Parthasarthi**
> Tubeknit Fashions, Tirupur

> Excellent machines giving results comparable to Sclavos, with the advantage of lower power consumption. We are using the machines for Lycra open width.
>
> **Vikram Mehta, CEO**
> Mahadev Fabrics, Kolkata

> On Pranav's 500 kg machine we are taking out production of almost 4 batches per day. Dyeing quality is acceptable and power consumption is very low.
>
> **Mr Chinraj, President**
> Sudhiti Industries

> Good machines. They saved us a lot of foreign exchange and were developed just on time. Our buyers are satisfied with the dyeing quality and results.
>
> **Mr Mylswamy, Proprietor**
> RMS Dyeing

> Excellent machine being used for wide width open width fabric. We were surprised with the quality of the machine.
>
> **Mr Deepak Bhai, CEO**
> Gaurav Dyeing

> We are very much satisfied with the Pranav 10 kg machine.
>
> **Mr Ram**
> KDS Group

MORE THAN 500 MACHINES RUNNING WORLDWIDE
